Leo Laporte discusses the various apps available for photo editing on the Mac. Lightroom is the Best Mainstream Photo Management and Editing App for macOS Adobe has been firing on all cylinders with Lightroom development this year, introducing an entirely new cloud-first version of the app, establishing a strong cross-platform presence, and improving core processing tools like color profiles.. Editing your photos on your iPhone is one thing, but editing your photos on your Mac can take your photography skills to a whole 'nother level.
